

College & Career Clubs of America

Empowering middle school students with the knowledge to apply to, pay for, succeed in, and graduate from college on time, with little to no debt.

THE PROBLEM

According to a report published by the Department of Education, during the 2009-10 school year, only 78.2 percent of high school students nationwide graduated on time.

OUR SOLUTION

College & Career Clubs of America addresses the need for a specific, long-term solution. Our 3-year standards-based curriculum teaches college, career, leadership and life skills to 6th, 7th, and 8th graders.

We believe that IF we engage middle school students in structured, interactive, and fun learning activities on the topics of college, career, leadership, and life skills, THEN these students will feel a greater sense of empowerment, as well as an intrinsic motivation to plan for and achieve success!

Dream Big supports students in four areas:

Academic Development • Leadership & Service Development
Personal Development • College Success Development

OUR APPROACH

Envision It. Plan it. Live it.

Our 3-year curriculum empowers students to create the future they want through fun activities and group discussions in a supportive environment.

OUR CURRICULUM

The cornerstone of College & Career Clubs of America is our curriculum, which was developed by experienced educators, current college students, & recent college graduates and is aligned with grades 6-8 Common Core State Standards.

Want a College & Career Club at your school or organization?

Dream Big is proud to partner with schools, school districts, churches, and community organizations to meet the college prep needs of the youth in our communities. Contact us for more information.
